

The mesmerising Horma Canyon is located in Ilıca Village of Pınarbaşı province. The canyon is composed of falls and deep lakes, and remarkable with its natural pool which reminds Ölüdeniz at the exit of it. Although this area creates excitement in the nature enthusiasts, deep wells and vessels make Horma Canyon very dangerous. For this reason the canyon shall not be passed without a local guide.

Horma Canyon; where you would see rocks in some areas and formations look like aqueducts, is a place where every nature enthusiast should visit. 3500 meters of walking path was built in order for the visitors to enjoy the canyon trip easily.
